Introduction

This prescription drug listing is provided to you by Principal Life Insurance Company. You should read the prescription drug section of your coverage booklet-certificate for an explanation of drug benefits and co-payments.

CAUTION

Your benefit design may exclude coverage for injectables, diabetic supplies, weight loss medications, vitamins, smoking deterrents, cosmetic drugs (including anti-aging, sun damage, and hair growth/removal drugs), or other drugs. Some drugs listed here may not be covered under your program. You should refer to your coverage booklet-certificate for specific coverage information.

This booklet is organized by drug categories and lists drugs in tiers. All drugs in this listing are separated into tiers. Which tier a drug is in will determine the amount of your co-payment. Even though a drug is listed in a specific tier, this does not necessarily mean it is a covered benefit under your contract language.

- Tier 1: Consists of drugs with the lowest co-payment and includes most generics. A few drugs commonly thought of as generics are actually classified as brand name drugs and do require payment of a higher co-pay.
- Tier 2: Includes preferred brand name drugs in selected drug classes. These drugs have the second lowest co-payment. Most of these drugs do not have a generic equivalent. Select classes have all brand name drugs in Tier 2.
- Tier 3: Includes all brand name drugs not in Tier 2. These drugs have the highest co-payment. If a brand name drug is listed in **boldface** type, a generic is available. If you choose the brand name product when a generic is available, your cost share may be more than your Tier 3 co-pay.

Drugs may change tiers during the year.

You may take this booklet to your physician's office so your doctor can review the preferred drug choices and identify appropriate drug(s) in a lower tier.

In addition, select prescriptions that are not covered by your normal prescription drug or medical coverage may be obtained at up to a 20% discount by showing your ID card at the time of purchase.

For Questions

- Review the prescription drug section in your coverage booklet.
- Call toll-free at 1-877-683-6838 to speak with a customer service representative.
- www.principal.com/health and click on Prescription Drug Tools

Generic Drugs

- Many brand name prescription products have generic equivalents. In this booklet, if a brand name drug is shown in **boldface** type, a generic equivalent is available.
- Generics contain the same active ingredients as brand name drugs, even though the generics may be a different color, shape or size.
- Generics are as safe and effective as their brand name counterparts.
- Generics are generally priced lower than brand name products and you will usually pay the lowest co-pay when you purchase a generic. If you choose the brand name drug, you will pay more.

Notice

The information contained in this prescription drug listing is provided for the convenience of members. It is not intended to be comprehensive in nature. This is not an insurance contract/plan document and does not contain all the qualifications and limitations that apply to your coverage.
